Stryde/GMG's "real-time" system for "Work Opportunity Tax Credit (WOTC)" is the "door opener" for the rest of what they do to help business owners save... by helping them receive "hiring tax incentives" and "expense reductions", which can be life changing for "small" to "medium" sized business owners who hire. Hiring a critical part of what they do. Stryde/GMG can do what nobody else can do with their new WOTC system... nobody, anywhere can undermine what you can do to qualify at such a high closing rate.

Some companies are aware of the WOTC benefit, but it's been too hard for them to qualify. Stryde/GMG's system is easy to use and requires no extra time for the HR; Stryde/GMG does all the required paperwork.

The new WOTC system opens the door for other services provided such as Property Taxes, Cost Segregation, R&D Tax Credits, Credit Card Audit, Worker's Comp, SRP, & more. Stryde/GMG will get business owners everything they're entitled to that they've been missing going back 7 years, and you'll earn commissions on ALL their savings. Business owners really love saving money and they need to save this money helping their bottom line.

The benefit of Stryde/GMG's new WOTC system is immediate for every business owner who hires, and agents referring businesses are getting paid.

ANYONE can become a new Stryde/GMG agent. See pages 5 & 8 on this link: http://reynoldsfinancial-assoc.com/email_Biz_CPA_Agent.pdf

Business owners find out about all the other savings through Stryde/GMG's Proprietary Software App (You'll earn commissions on ALL the savings).

There are a lot of companies that are a good fit for Stryde/GMG's new WOTC system...

Staffing companies

Restaurants

Rehab facility

Paving Company

Assisted Living facility

Retail stores

Call Centers

"Small" to "Medium" sized companies have no better option to use than Stryde/GMG's new WOTC signup: <https://gmg.me/240375>

"Large" companies have a lot of options, but are qualifying less than 3% of their employees when using the normal WOTC process.

If your company has not been receiving Tax Credits, you can try this system.

Example 1: A large company who hired 500 employees last year received "0" qualifiers using the normal WOTC process, but during the 1st week using Stryde/GMG's WOTC process, they received tax credits from qualifiers; over \$50,000 in savings the first 30 days. Stryde/GMG's system works instantly qualifying workers.

Example 2: An assisted Living Facility using the normal WOTC process had a qualifying rate of only 3%...but in the 1st month of now using Stryde/GMG's WOTC, got a 60% qualifying rate.

WOTC Ad #1:

Do You Hire ANY employees? "Work Opportunity Tax Credit" (WOTC)

Dear Business Owner,

"Turnover Cost" is one of the biggest concerns for a business owner who hires. Stryde/GMG invented a new "real-time" WOTC system that works to help reduce the risk of "Turnover Cost"... it also offers you a "fully" educated decision on who you hire.

If you hire, consider activating the new system because it helps out tremendously. Most of the time, federal tax dollars are being missed on your new hires, and these are astronomical tax credits you can get.

1 new hire (1 tax credit) can be a \$9,600 in savings for your company.

See the Savings Calculator. Activate here: <https://gmg.me/240375> **No Contract Required!**

You'll be instantly setup able to screen new candidates with the system. Stryde/GMG will walk you through the easy to use system once you activate (demo).

=====

The system is good for ANY SIZE business owner who hires one (1) new person per year. You'll know exactly who's qualified for a tax credit before you hire, and how much it will be. MANY employees qualify more than you think, you'll see.

The system processes in "real time"... also acting as an additional screener for your new hires "knowledgeability" and "Truthfulness", which can save time and money (opportunity cost) on hiring the right people. There is no other system that can process like this.

Your tax credits will begin immediately...

The amount of tax credit received is broken down like this: 25% (\$2,400), 50% (\$4,800), 75% (\$7,200), 100% (\$9,600) as long as they work for the company for a minimum 120 hrs. The smallest amount you can receive is \$2,400 (1 tax credit). You'll receive the full tax credit if they can stay 400 hrs.

See Attachment – "Bullet Points" of the new system (WOTC)

Please contact us for more answers. Business owners activating are happy using the system getting instant gratification. Talk to you soon!

Sincerely,

-- Nicole
